**DADE BEHRING TO OFFER DEFINITY HEALTH BENEFIT PLAN  
TO ITS 3,500 U.S. EMPLOYEES**

*Underscores Growing Interest in Consumer-Driven Healthcare*

**MINNEAPOLIS** – June 21, 2001 – Definity Health announced today that Dade Behring, one of the world’s largest clinical diagnostics companies with U.S. headquarters in Deerfield, Ill., will make its consumer-driven health benefit option available to the company’s 3,500 U.S. employees, beginning January 1, 2002.

“With Definity Health, Dade Behring will be able to offer an innovative health benefit option that addresses many of the issues and concerns around managed care.” said Candace Davis, Director of Global Benefits for Dade Behring. “The Definity Health benefit will give our employees an option that allows them greater personal involvement through choice and control over their healthcare decisions.”

“Dade Behring’s decision to offer Definity Health is further evidence that consumer-driven healthcare is gaining recognition among employers,” said Tony Miller, Definity Health chief executive officer. “We are delighted to have been selected by Dade Behring.”

Offered to employers for the first time in 2000, Definity Health is now available to employees of Illinois-based Aon Corporation and Minnesota-based Medtronic, Inc., and Ridgeview Medical. In addition, the University of Minnesota will offer the plan to its 16,000 employees, beginning in January 2002.

The Definity Health benefit option differs dramatically from managed care and other health benefit plans by putting consumers in greater charge of their healthcare choices, equipping

– more –

them with the information and support they need to make decisions and providing them with financial incentives to encourage more efficient use of healthcare services.

Under the Definity Health benefit, members pay for healthcare services of their choice out of their Personal Care Account, an account provided by employers at a set amount each year. Any funds left in the Personal Care Account at year-end roll over and may be used by employees for future medical expenses. If an employee's annual healthcare costs exceed funds in the Personal Care Account, health coverage is provided once a deductible is met. In addition, Definity Health provides extensive tools and information to support consumers as they exercise greater choice and take on increased responsibility in making informed health and wellness decisions.

With 2000 revenues of \$1.2 billion, Dade Behring is among the world's largest clinical diagnostics companies. It offers a wide range of products and systems for diagnostics testing, making it today's best resource in this field. The company has operations in 40 countries.

Minneapolis-based Definity Health began operations in 1999 with the goal of providing health benefit programs that give consumers both greater choice and responsibility over their healthcare decisions. Financial backers include Kohlberg Kravis Roberts & Co., Merrill Lynch Ventures, Bain Capital, Aon Corporation, Alta Partners, Psilos Group Managers, Toronto Dominion Investments and Brightstone Capital. Strategic partners include Aon Corporation, Johns Hopkins University and Health System, Synertech, Wells Fargo and Merck-Medco.
